MSDS No: CAR010C5 Issue Date: 25 Aug. 2005 Page: 1 of 5

MATERIAL SAFETY DATA SHEET

SECTION 1	PRODUCT AND COMPANY IDENTIFICATION
Trade Name:	CARLON ELECTRICAL PRODUCTS STANDARD CLEAR PVC SOLVENT CEMENT
Product Numbers:	VC9961P, VC9962, VC9963, VC9964, VC9963C, VC9965C
Product Use:	Cement for PVC Plastic Pipe
Formula:	PVC Resin in Solvent Solution
Synonyms:	PVC Plastic Pipe Cement
Firm Name &	CARLON ELECTRICAL PRODUCTS c/o OATEY CO. 4700 West 160 th Street
Mailing Address:	P.O. Box 35906 Cleveland, Ohio 44135, U.S.A.
	http://www.oatey.com
Oatey Phone Number:	(216) 267-7100 or (800) 321-9532
Emergency Phone	For Emergency First Aid call 1-303-623-5716 COLLECT. For
Numbers:	chemical transportation emergencies ONLY, call Chemtrec at
	1-800-424-9300. Outside the U.S. 1-703-527-3887.
Prepared By:	Corporate Director - Safety and Environmental Compliance
Preparation Date:	August 25, 2005
SECTION 2	COMPOSITION/INFORMATION ON INGREDIENTS
INGREDIENTS:	<pre>%wt/wt: CAS NUMBER: ACGIH TLV TWA: OSHA PEL TWA: OTHER:</pre>
material and for a former	

INGREDIENIS.	GWL/WL•	CAS NUMBER. A	ACGIH ILV IWA.	OSHA PEL IWA.	OIHER.

			50 ppm STEL		
Amorphous Fumed Silica	a 1 - 5%	112945-52-5	5 10 mg/m3	None	None
(Non-hazardous)				Established	

OSHA Hazard Classification:

Flammable, irritant, organ effects

SECTION 3 HAZARDS IDENTIFICATION

Emergency Overview:

Clear liquid with an ether-like odor. Extremely flammable liquid and vapor. Vapors may cause flash fire. May cause eye and skin irritation. Inhalation of vapors or mist may cause respiratory irritation and central nervous system effects. Swallowing may cause irritation, nausea, vomiting, diarrhea and kidney or liver disorders. Aspiration hazard. May be fatal if swallowed. Symptoms may be delayed.

SECTION 4FIRST AID MEASURES
CALL 1-303-623-5716 COLLECTSkin:Remove contaminated clothing immediately. Wash all exposed areas with
soap and water. Get medical attention if irritation develops. Remove
dried cement with Oatey Plumber's Hand Cleaner or baby oil.Eyes:If material gets into eyes or if fumes cause irritation, immediately

flush eyes with plenty of water until chemical is removed. If irritation persists, get medical attention immediately.

Inhalation: If symptoms of exposure develop, remove to fresh air. If breathing becomes difficult, administer oxygen. Administer artificial respiration if breathing has stopped. Seek immediate medical attention.

Ingestion: DO NOT INDUCE VOMITING. Rinse mouth with water. Never give anything by mouth to a person who is unconscious or drowsy. Get immediate medical attention by calling a Poison Control Center, or hospital emergency room. If medical advice cannot be obtained, then take the person and product to the nearest medical emergency treatment center or hospital.

MSDS No: CAR010C5 Issue Date: 25 Aug. 2005 Page: 2 of 5

SECTION 5	FIRE FIGHTING MEASURES
Flashpoint / Method:	0 - 5 Degrees F. (-1815 Degrees C / PMCC
Flammability:	LEL = 1.8 % Volume, UEL = 11.8 % Volume
Extinguishing	Use dry chemical, CO2, or foam to extinguish fire. Cool fire
Media:	exposed container with water. Water may be ineffective as an extinguishing agent.
Questial Time	5 5 5
Special Fire	Firefighters should wear positive pressure self-contained
Fighting	breathing apparatus and full protective clothing for fires in
Procedure:	areas where chemicals are used or stored
Unusual Fire and	Extremely flammable liquid. Keep away from heat and all
Explosion	sources of ignition including sparks, flames, lighted
Hazards:	cigarettes and pilot lights. Containers may rupture or
	explode in the heat of a fire. Vapors are heavier than air
	and may travel to a remote ignition source and flash back.
	This product contains tetrahydrofuran that may form explosive
	organic peroxide when exposed to air or light or with age.
Hazardous	Combustion will produce toxic and irritating vapors including
Decomposition	carbon monoxide, carbon dioxide and hydrogen chloride.
Products:	

SECTION 6 ACCIDENTAL RELEASE MEASURES

Spill or Remove all sources of ignition and ventilate area. Stop leak if it Leak can be done without risk. Personnel cleaning up the spill should Procedures: wear appropriate personal protective equipment, including respirators if vapor concentrations are high. Soak up spill with an inert absorbent such as sand, earth or other non-combusting material. Put absorbent material in covered, labeled metal containers. Prevent liquid from entering watercourses, sewers and natural waterways. Report releases to authorities as required. See Section 13 for disposal information.

SECTION 7 HANDLING AND STORAGE

Handling: Avoid contact with eyes, skin and clothing. Avoid breathing vapors or mists. Use with adequate ventilation (equivalent to outdoors). Wash thoroughly after handling. Do not eat, drink or smoke in the work area. Keep product away from heat, sparks, flames and all other sources of ignition. No smoking in storage or use areas. Keep containers closed when not in use.

Storage: Store in a cool, dry, well-ventilated area away from incompatible materials. Keep containers closed when not in use.

Other: "Empty" containers retain product residue and can be hazardous. Follow all MSDS precautions in handling empty containers. Do not cut or weld on or near empty or full containers.

SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Ventilation: Open doors & windows. Provide ventilation capable of maintaining emissions at the point of use below recommended exposure limits. If used in enclosed area, use exhaust fans. Exhaust fans should be explosion-proof or set up in a way that flammable concentrations of solvent vapors are not exposed to electrical fixtures or hot surfaces.

Respiratory For operations where the exposure limit may be exceeded, a NIOSH Protection: For operations where the exposure limit may be exceeded, a NIOSH approved organic vapor respirator or supplied air respirator is recommended. Equipment selection depends on contaminant type and concentration, select in accordance with 29 CFR 1910.134 and good industrial hygiene practice. For firefighting, use self-contained breathing apparatus.

SkinRubber gloves are suitable for normal use of the product. For longProtection:exposures chemical resistant gloves may be required such as4H(tm) or Silver Shield(tm) to avoid prolonged skin contact.

MSDS No: CAR010C5 Issue Date: 25 Aug. 2005 Page: 3 of 5

SECTION 8 (Continued)
Eye Safety glasses with sideshields or safety goggles.
Protection:
Other: Eye wash and safety shower should be available.

SECTION 9	PHYSICAL AND CHEMICA			
Boiling Point:	151 Degrees F / 6	6 Degrees C		
Melting Point:	Not Applicable			
Vapor Pressure:	145 mmHg @ 20 Deg	rees C		
Vapor Density:	(Air = 1) 2.5			
Volatile Componen	ts: 81-85%			
Solubility In Wat	er: Negligible			
pH:	Not Applicable			
Specific Gravity:	0.94 +/- 0.01 @ 2	0 Degrees C		
Evaporation Rate:	(BUAC = 1) = 5.5			
Appearance:	Clear Liquid			
Odor:	Ether-Like			
Will Dissolve In:	Tetrahydrofuran			
Material Is:	Liquid			
Material 15.	LIQUID			
SECTION 10	STABILITY AND REACTI	VITY		
Stability:	Stable.			
Conditions To Avo		s, flames and other sources of ignition.		
Hazardous		roduce toxic and irritating vapors		
Decomposition		monoxide, carbon dioxide and hydrogen		
Products:	chloride.	monoxide, carbon dioxide and nydrogen		
Incompatibility/		alkalis, amines, ammonia, acids, chlorine		
Materials To Avoi		nated inorganics (potassium, calcium and		
Matterials 10 mol		te) and hydrogen peroxides. May attack		
	plastic, resins a			
Hazardous	Will not occur.	na rubber.		
Polymerization:	WIII HOC OCCUI.

SECTION 11 (Continued)

Sensitization: Carcinogenicity:	None of the components are known to cause sensitization. None of the components are listed as a carcinogen or suspect carcinogen by NTP, IARC or OSHA. The National Toxicology Program has reported that exposure of mice and rats to tetrahydrofuran (THF) vapor levels up to 1800 ppm 6 hr/day, 5 days/week for their lifetime caused an increased incidence of kidney tumors in male rats and liver tumors in female mice. The significance of these findings for human health is unclear at this time, and may be related to "species specific" effects. Elevated incidences of tumors in humans have not been reported for THF. ACGIH has classified cyclohexanone (CYH) and tetrahydrofuran as "A3," Confirmed Animal Carcinogens with Unknown Relevance to Humans.
Mutagenicity:	Cyclohexanone has been positive in bacterial and mammalian assays. Acetone, methyl ethyl ketone and tetrahydrofuran are generally thought not to be mutagenic.
Reproductive Toxicity:	Cyclohexanone and methyl ethyl ketone have been shown to cause embryofetal toxicity and birth defects in laboratory animals. Acetone and tetrahydrofuran have been found to cause adverse developmental effects only when exposure levels cause other toxic effects to the mother.
Medical Conditions Aggravated By Exposure:	Persons with pre-existing skin, lung, kidney or liver disorders may be at increased risk from exposure to this product.

SECTION 12	ECOLOGICAL INFORMATION
	This product is not expected to be toxic to aquatic organisms.
	Cyclohexanone: 96 hour LC50 values for fish is over 100 mg/l.
	Tetrahydrofuran: 96 hour LC50 fathead minnow: 2160 mg/L.
	Methyl Ethyl Ketone: 96 hour LC50 for fish is greater than 100 mg/L.
	Acetone: 96 hour LC50 for fish is greater than 100 mg/L.
VOC	This product emits VOC's (volatile organic compounds) in its use.
Information:	Make sure that use of this product complies with local VOC emission
	regulations, where they exist.
VOC Level:	600 g/l per SCAQMD Test Method 316A.

SECTION 13 DISPOSAL CONSIDERATIONS

Waste Disposal: Dispose in accordance with current local, state and federal regulations.

RCRA Hazardous Waste Number: U002, U057, U159, U213 EPA Hazardous Waste ID Number: D001, D035, F003, F005 EPA Hazard Waste Class: Ignitable Waste. Toxic Waste (Methyl Ethyl Ketone content)

MSDS No: CAR010C5 Issue Date: 25 Aug. 2005 Page: 5 of 5

SECTION 14 TRANSPORT INFORMATION DOT Less than 1 Liter (0.3 gal) Greater than 1 Liter (0.3 gal) Proper Shipping Name: Consumer Commodity Adhesives 3, PGII Hazard Class/Packing Group: ORM-D UN/NA Number: None UN1133 Hazard Labels: None Flammable Liquid IMDG Proper Shipping Name: Adhesives Adhesives Hazard Class/Packing Group: 3, II 3, II UN Number: UN1133 UN1133 Label: None (Limited Quantities Class 3 (Flammable are excepted Liquid) from labeling) 2004 North American Emergency Response Guidebook Number: 127 or 128 SECTION 15 REGULATORY INFORMATION Hazard Category for Section Acute Health, Chronic Health, Flammable 311/312: Section 302 Extremely This product does not contain chemicals regulated Hazardous Substances (TPQ): under SARA Section 302. Section 313 Toxic Chemicals: This product contains the following chemicals subject to SARA Title III Section 313 Reporting requirements: Chemical CAS # % by wt. Methyl Ethyl Ketone 78-93-3 10-30% CERCLA 103 Reportable Spills of this product over the RQ (reportable Quantity: quantity) must be reported to the National Response Center. The RQ for the product, based on the RQ for Tetrahydrofuran (65% maximum) of 1,000 lbs, is 1,538 lbs. Many states have more stringent release reporting requirements. Report spills required under federal, state and local regulations. This product contains trace amounts of chemicals California Proposition 65: known to the State of to cause cancer. Under normal Use conditions, exposure to these chemicals at levels above the State of California "No Significant Risk Level" (NSRL) are unlikely. Oatey strongly encourages the use of proper personal protective equipment (PPE) and ventilation guidelines noted in Section 8 to minimize exposure to these chemicals. TSCA Inventory: All of the components of this product are listed on the TSCA inventory. Canadian WHIMS Classification: Class B, Division 2; Class D, Division 2, Subdivision B. This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR.
