:	Section 3	HAZARDS IDENTIFICA	TION				

### SUMMARY OF ACUTE HAZARDS

Overexposure may cause coughing, shortness of breath, dizziness, central nervous system depression, intoxication and collapse. It may cause irritation to the respiratory tract and to other mucous membranes.

ROUTE OF EXPOSURE, SIGNS AND SYMPTOMS
INHALATION

\_\_\_\_\_\_

Overexposure may cause coughing, shortness of breath, dizziness, central nervous system depression, intoxication and collapse. It may cause irritation to the respiratorytract and to other mucous membranes. EYE CONTACT

Severely irritating. If not removed promptly, will injure eye tissue, which can result in permanent damage. SKIN CONTACT

Frequent or prolonged contact may irritate and cause dermatitis. Low order of toxicity.  $\begin{tabular}{l} \textbf{INGESTION} \end{tabular}$ 

Low order of toxicity. Small amounts of the liquid aspirated into the respiratory system during ingestion, or from vomiting, may cause

bronchiopneumonia or pulmonary edema. SUMMARY OF CHRONIC HAZARDS

Repeated or prolonged exposure may cause signs of central nervous system depression and respiratory irritation. This material has been shown to induce tumors in laboratory animals.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE

Individuals with pre-existing or chronic diseases of the eyes, skin, respiratory system, cardiovascular system, gastrointestinal system, liver, or kidneys may have increased susceptibility to excessive exposure.

\_\_\_\_\_\_

### Section 4 -- FIRST AID MEASURES

\_\_\_\_\_

If INHALED: If overcome by exposure, remove victim to fresh air immediately. Give oxygen or artificial respiration as needed. Obtain emergency medical attention. Prompt

action is essential.

If on SKIN: Immediately flush with large amounts of water; use soap

if available. Remove contaminated clothing.

If in EYES: Immediately flush with large amounts of water for at least

15 minutes. Get prompt medical attention.

If SWALLOWED: If swallowed, DO NOT induce vomiting. Keep at rest. Get

prompt medical attention.

\_\_\_\_\_\_

## Section 5 -- FIRE FIGHTING MEASURES

\_\_\_\_\_\_

FLASH POINT LEL UEL 6 F (-14 C) SETA CC 2% 11.8%

EXTINGUSING MEDIA

Foam, dry chemical, carbon dioxide or water fog.

SPECIAL FIRE FIGHTING PROCEDURES: Wear self-contained breathing apparatus (SCBA) and other protective clothing. Hazardous decomposition products possible (see Section 10).

UNUSUAL FIRE AND EXPLOSION HAZARDS: Combustible - moderate flash point. Vapors heavier than air and may travel along the ground or to low spots at considerable distances to a source of ignition resulting in potential flashback. Burning liquid may float on water. Heat may build up pressure and rupture containers.

\_\_\_\_\_\_

# Section 6 -- ACCIDENTAL RELEASE MEASURES

\_\_\_\_\_\_

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Remove all sources of ignition. Use absorbent materials to prevent footing hazard and to contain. Ventilate area with natural or explosion-proof, forced air ventilation. Avoid flushing into sewers, drains, waterways, and soil. Wear protective clothing and respiratory protection during cleanup.

-----

Section 7 -- HANDLING AND STORAGE

\_\_\_\_\_\_

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING: Keep container closed and upright when not in use. Do not store near heat, sparks, or open flames. If transferring this material to other containers, ground all containers to avoid static electricity buildup and discharge which may ignite flammable vapors.

OTHER PRECAUTIONS: Avoid prolonged or repeated contact with skin or clothing. Empty containers may contain residues and vapors; treat as if full and observe all products precautions. Do not reuse empty containers. KEEP OUT OF REACH OF CHILDREN.

-----

Section 8 -- EXPOSURE CONTROLS/PERSONAL PROTECTION

\_\_\_\_\_\_

```
RESPIRATORY PROTECTION (SPECIFY TYPE): In confined poorly ventilated areas,
  use NIOSH/MSHA approved air purifying or supplied air purifying or
  supplied air respirators.
VENTILATION - LOCAL EXHAUST: Acceptable
SPECIAL: Explosion-proof equipment.
MECHANICAL (GENERAL): Preferable
OTHER: N/A
PROTECTIVE GLOVES: Wear rubber gloves.
EYE PROTECTION: Chemical splash goggles (ANSI Z-87.1 or equivalent)
OTHER PROTECTIVE CLOTHING OR EQUIPMENT: Coveralls recommended.
WORK/HYGIENIC PRACTICES: Where use can result in skin contact, wash exposed
  areas thoroughly before eating, drinking, smoking, or leaving work area.
  Launder contaminated clothing before reuse.
______
       Section 9 -- PHYSICAL AND CHEMICAL PROPERTIES
_____
BOILING POINT:
                               151 F (66 C) @ 760mm Hg
SPECIFIC GRAVITY (H20 = 1):
                               0.96
VAPOR PRESSURE (mm Hg):
                               140 @ 68 F (20 C)
MELTING POINT:
                               N/A
VAPOR DENSITY (AIR = 1):
EVAPORATION RATE (ETHYL ACETATE = 1): 6
APPEARANCE/ODOR:
                               Clear or Gray Liquid/Pungent Odor
SOLUBILITY IN WATER:
                               62%
______
        Section 10 -- STABILITY AND REACTIVITY
  ______
STABILITY: Can form potentially explosive peroxides upon long standing in
CONDITIONS TO AVOID: Heat, sparks, open flames, and strong oxidizing,
  acidic and basic conditions.
INCOMPATIBILITY (MATERIALS TO AVOID): Oxidizers, acids and bases.
HAZARDOUS DECOMPOSITION PRODUCTS: CO, CO2, HCl and fragmented hydrocarbons.
HAZARDOUS POLYMERIZATION: Will not occur.
______
       Section 11 -- TOXICOLOGY INFORMATION
CHRONIC HEALTH HAZARDS
  No ingredients in this product is an IARC, NTP or OSHA Lister carcinogen.
  Tetrahydrofuran - The National Toxicology Program has reported that
  exposures of mice and rats to THF vapor levels up to 1800 ppm 6hr/day, 5
  days/week for their lifetime caused an incidence of kidney tumors in male
  rats and liver tumors in female mice. The significance of these findings
  for human health are unclear at this time, and may be related to "species
  specific" effects. Elevated incidences of tumors in humans have not been
  reported for THF.
______

Section 12 -- Ecological Information
______
ECOLOGICAL DATA
Ingredient Name
______
  Methyl Ethyl Ketone
             Food Chain Concentration Potential: None
             WATERFOWL TOXICITY: N/A
             BOD: 214%
             AQUATIC TOXICITY: 5640 mg/l/48 hr/bluegill/TLm/fresh water
  Tetrahydrofuran
             Food Chain Concentration Potential: None
             WATERFOWL TOXICITY: N/A
             BOD: N/A
             AQUATIC TOXICITY: N/A
  Cyclohexanone
             Food Chain Concentration Potential: None
             WATERFOWL TOXICITY: N/A
             BOD: N/A
             AQUATIC TOXICITY: N/A
______
      Section 13 -- DISPOSAL CONSIDERATIONS
______
Waste Classification: RCRA classified hazardous waste. Dispose of absorbed
  materials and liquid waste in approved, controlled incineration facility
  in accordance with all local, state and federal regulations.
Disposal Method: Incineration
______
       Section 14 -- TRANSPORTATION INFORMATION
